

# Trinity Tidings

March 9, 2020

**Principal's Corner** Every morning during announcements,

I ask the students a Trivia question. In looking for Trivia questions last week, I found out that, currently, we have the three teachers that have served the most years at Trinity. Their total years of service add up to over 100 years of teaching children at TLS-Janesville. This has helped bring stability and consistency to our school, church and community. Trinity Lutheran School has been in existence for 130 years. The school has brought stability and consistency to our community in educating students about their Lord and Savior Jesus Christ. We praise God for all the teachers and staff that have made Trinity the special place it is. We pray that God will continue to bless us and our ministry here to the children and future leaders of our church.

**February/March Chapel Offerings** WATER WELL PROJECT UPDATE... THE CHALLENGE was given and some are meeting it. The students voted to go BIG. Their chapel offerings will go toward a well for the students in Polar Liberia, where students have to walk a half mile to get clean drinking water. To make this project a reality, we are calling on some extra resources. So far we have six sponsors that have met the challenge of matching \$100 of the chapel money our students and staff are bringing in: HUEY'S FARM SEEDS, STEEL THE MOMENT PHOTOGRAPHY, TOBY'S SHOP, MALTERER FARMS, SUMMERS RIDGE VET CLINIC and an ANONYMOUS SUPPORTER. **What other business or group will meet the challenge to match another \$100?** Let's keep this challenge going! So far, the students and staff have brought in \$794.84!

The Science Fair will be held on

**Friday, March 13, 6:30 -7:30 pm, at the school gym.**

Each student in grades 5-8 are doing an individual project that will show the scientific method in action. They will be presenting their projects at the Science Fair. Grades 3 & 4 are doing a classroom project that will also be displayed during this time. We invite all to come look at the student's projects which explore the scientific method in action. Hope to see you there!
